

a³™ CeramicSteel Sans

Collaborate freely with a thoughtfully designed,
high-performance writing board.

a³ CeramicSteel Sans provides an elegant, frameless writing surface to support the way people express ideas.

Define Collaboration

Collaboration means working together—throwing ideas into the mix and onto the wall.

a³ CeramicSteel Sans supports sharing analog information while bringing an element of design to any space.

Frameless Design + Unlimited Collaboration

Sleek and slim, a³ CeramicSteel Sans is frameless and appears as if it's floating on the wall. With precision-cut, sealed edges and simple installation, it removes barriers to workplace inspiration.

Sophisticated + Functional

a³ CeramicSteel Sans is a modern take on the traditional framed whiteboard. With functionality in mind, the smooth glass-like surface serves as an avenue for communication and a centerpiece of design. With a clear marker-to-whiteboard color contrast, a³ CeramicSteel offers readability not found with other surfaces. It's also magnetic, easy to clean and fully scratch resistant. In fact, it's so durable it has an expected life cycle exceeding 50 years.

Ideas for Use

Leverage vertical wall space in all types of collaboration areas:

- Conference rooms
- Enclaves
- Design studios
- Private offices
- Classrooms
- Training spaces
- Administrative spaces
- Breakrooms

Features

- Frameless, floating edge
- Concealed mounting
- Highly durable
- Surface made from inorganic materials
- Easy to clean
- Colorfast—will not fade
- Strong magnetic capability
- Scratch, bacteria, chemical and fire resistant
- Smooth, inert surface
- Sophisticated aesthetic
